

MARINE CREEK MEADOWS

Homeowners Association

****Contacts for Incidents in the Neighborhood****

We discussed this in our Annual Meeting last week, but we also wanted to provide the information for all who were not able to join us during the meeting. It is very important for all incidents to be reported to the police even if you notice the incident at a later time or even if nothing was stolen or damaged. Having every incident on record with the police will help our neighborhood to get an increased level of support from the police and they will be able to accurately track the crime in our neighborhood as well. The police reports are the only way that the city has to track any incidents and crime in an area so it is very important that these are being filed for every case you may encounter. The Non-Emergency police reports can be filed online and below are the city contacts so that you have them for reference. If you reach out to our Neighborhood Police Office regarding an incident, it is important that you file the police report as well so that there is a record of the incident on file. It is also important that you file a police report for any incident you are reporting to the HOA. The police reports are the key to ensuring that our neighborhood is a peaceful and safe place for us all. Please reach out to the HOA Board for any questions you may have.
